

# Battelle *for* Kids

A Learning Partnership of the Ohio Business Roundtable

## CERTIFICATE OF ATTENDANCE

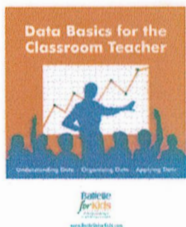

### *Data Basics for the Classroom Teacher*

*Joachim LaValley*

---

April 12<sup>th</sup> and 13<sup>th</sup>, 2005 from 8:30 AM to 4:00 PM (12.5 contact hours) at  
Ashland University in Columbus, OH

This two-day, hands-on workshop is designed to prepare educators to make the shift from infrequent or scattered use of data to timely, everyday applications of classroom and achievement data to inform instruction, identify appropriate interventions, and reward progress. The session focused on the three modules of the *Journey Through Data* toolkit with these goals: motivating participants to use data on a daily basis; reviewing basic data terms and uses; using simulated and actual classroom data; utilizing district and building data to set improvement goals with instructional strategies.
