

CERTIFICATE OF COMPLETION

Joachim LaValley

VA1010 - Introduction to Value-Added Progress Metrics

completed on Sunday, Apr 19, 2015

HOURS: 0.50

LEARNING DESCRIPTION

This course makes the argument for why value-added progress measures are needed in today's educational environment. Learn about progress and achievement and why it's important to measure both.

LEARNING OBJECTIVES

- Understand the difference between achievement and progress.
- Learn how value-added analysis works.
- Recognize the benefits of value-added progress information.
- Understand the rationale for using value-added information to improve teaching and learning.
